

**Nova Scotia Health Research Foundation
Scotia Support Grant 2013 - 14: Funded Recipients**

The Scotia Support Grant provides flexibility for all levels of academic trainees to be engaged within Nova Scotia based research programs that are generating knowledge that is relevant to the health research priorities of the NSHRF.

The objectives of the Scotia Support Grant are:

- Support additional training opportunities within vibrant and productive research programs;
- Enable funded researchers/supervisors to recruit the level and number of research trainees needed to enhance their programs of research;
- Provide flexibility for all levels of academic trainees to be engaged within Nova Scotia based research programs that are generating knowledge relevant to the NSHRF health research priority areas; and
- Contribute to the sustainability of local research programs that have the potential to impact and improve the health of Nova Scotians, while also training tomorrow's health researchers.
